Vincent Schilling

Native Viewpoint

'Bad River' is an exceptional testament to Native resilience. I laughed, cried and raised my hand in triumph. As a critic, "Bad River" fulfills all of my personally desired elements and thus earns a well-deserved 10 out of 10. I highly recommend it!

Film Threat

Bad River made me angry in the intended way. The injustice that the Indigenous have faced for many years is only one story in a huge history that needs to be told. This is a movie that should be included in every American history curriculum.

Culture Mix

Bad River sounds an important alarm about the battle for civil rights and environmental protection in a crusade led by the Bad River Band. This must-see documentary shows in unflinching ways how these issues affect everyone on a global level.
